

# **We Do Not Allow E-Bikes on the Chair Lift**

**We have an excellent climbing trail (Imu's Climb) and have opened up access for E-Bikes to use the Skyline Trail.**

**If using Imu's Climb on an E-Bike, please be respectful of other riders and pass only in appropriate areas.**

**If you would like to get the full experience of riding the chair, we have a bike rental shop and are happy to rent you a bike for the session if available.**

**Here are some reasons we don't allow E-Bikes on our chair lift...**

- 1. E-Bikes are heavier than typical mountain bikes and are not easy to load for our operators.**
- 2. E-Bikes have batteries that are combustable that could create a fire hazard on the chair.**
- 3. E-Bikes have motors that can assist in an effortless ride up the mountain.**

**Have A Great Day!**
